

Haifa, 12/2016

I have started the treatment with load in November 2015. At that time my left shoulder was very painful. We have started with one session every 2/3 weeks, and shortly my shoulder was working perfectly again. No pain at all, I was feeling very well.

Afterwards, until now, I keep going once every 2/3 months, just to keep the body (and the soul) in balance. This helps me very much in my everyday tasks, like: pottery classes, spinning classes and taking care of my 7 grandchildren!
